### Options

[Personal Information](#)  
This contains personal information about yourself such as your name, your email address, etc.

[Message Highlighting](#)  
Based upon given criteria, incoming messages can have different background colors in the message list. This helps to easily distinguish who the messages are from, especially for mailing lists.

[Index Order](#)  
The order of the message index can be rearranged and changed to contain the headers in any order you want.

[Display Preferences](#)  
You can change the way that SquirrelMail looks and displays information to you, such as the colors, the language, and other settings.

[Folder Preferences](#)  
These settings change the way your folders are displayed and manipulated.
